

# Hanging Gardens

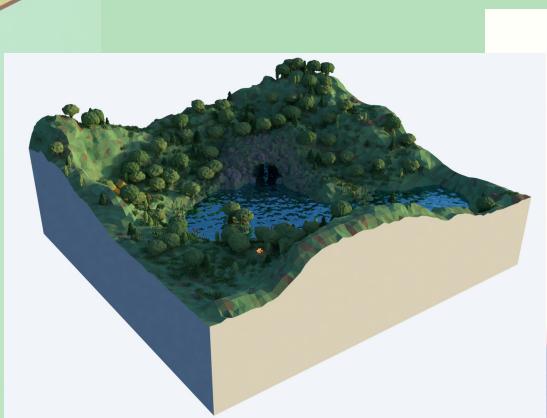

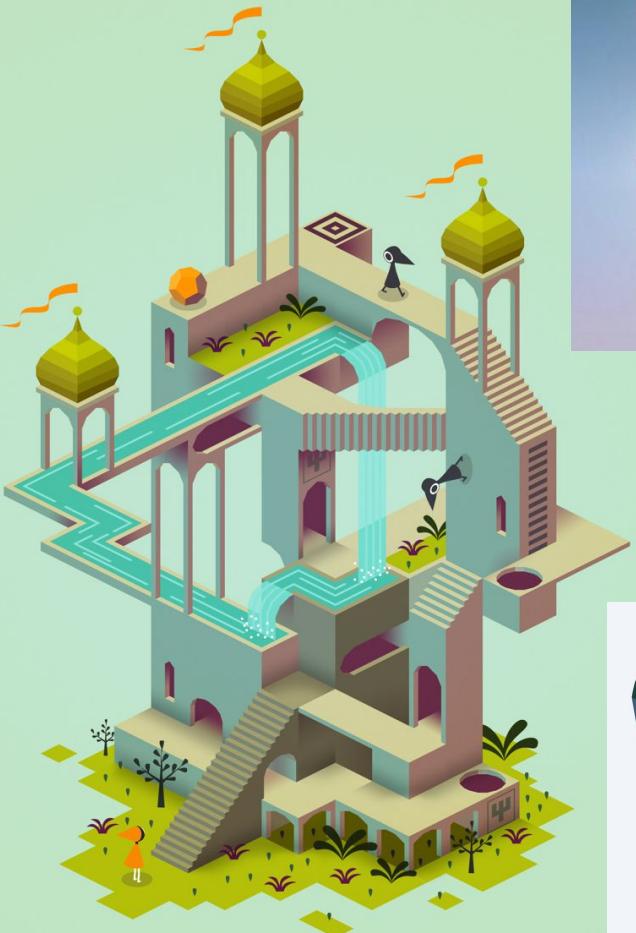

Ally Hall, Josiah Morgan, Marical Reinhard

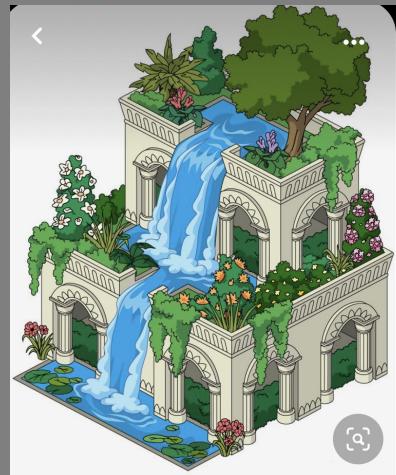

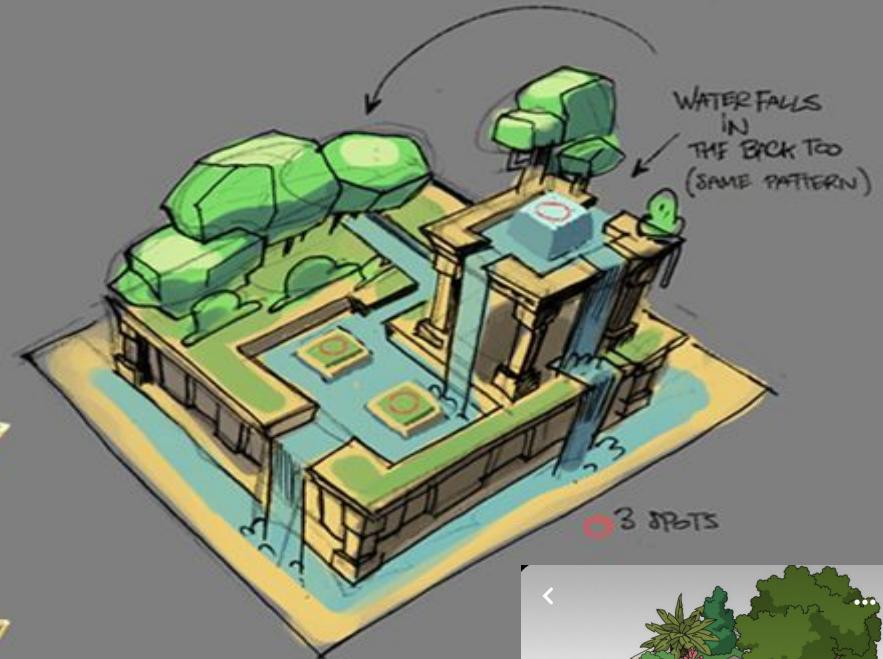

# World Moodboards

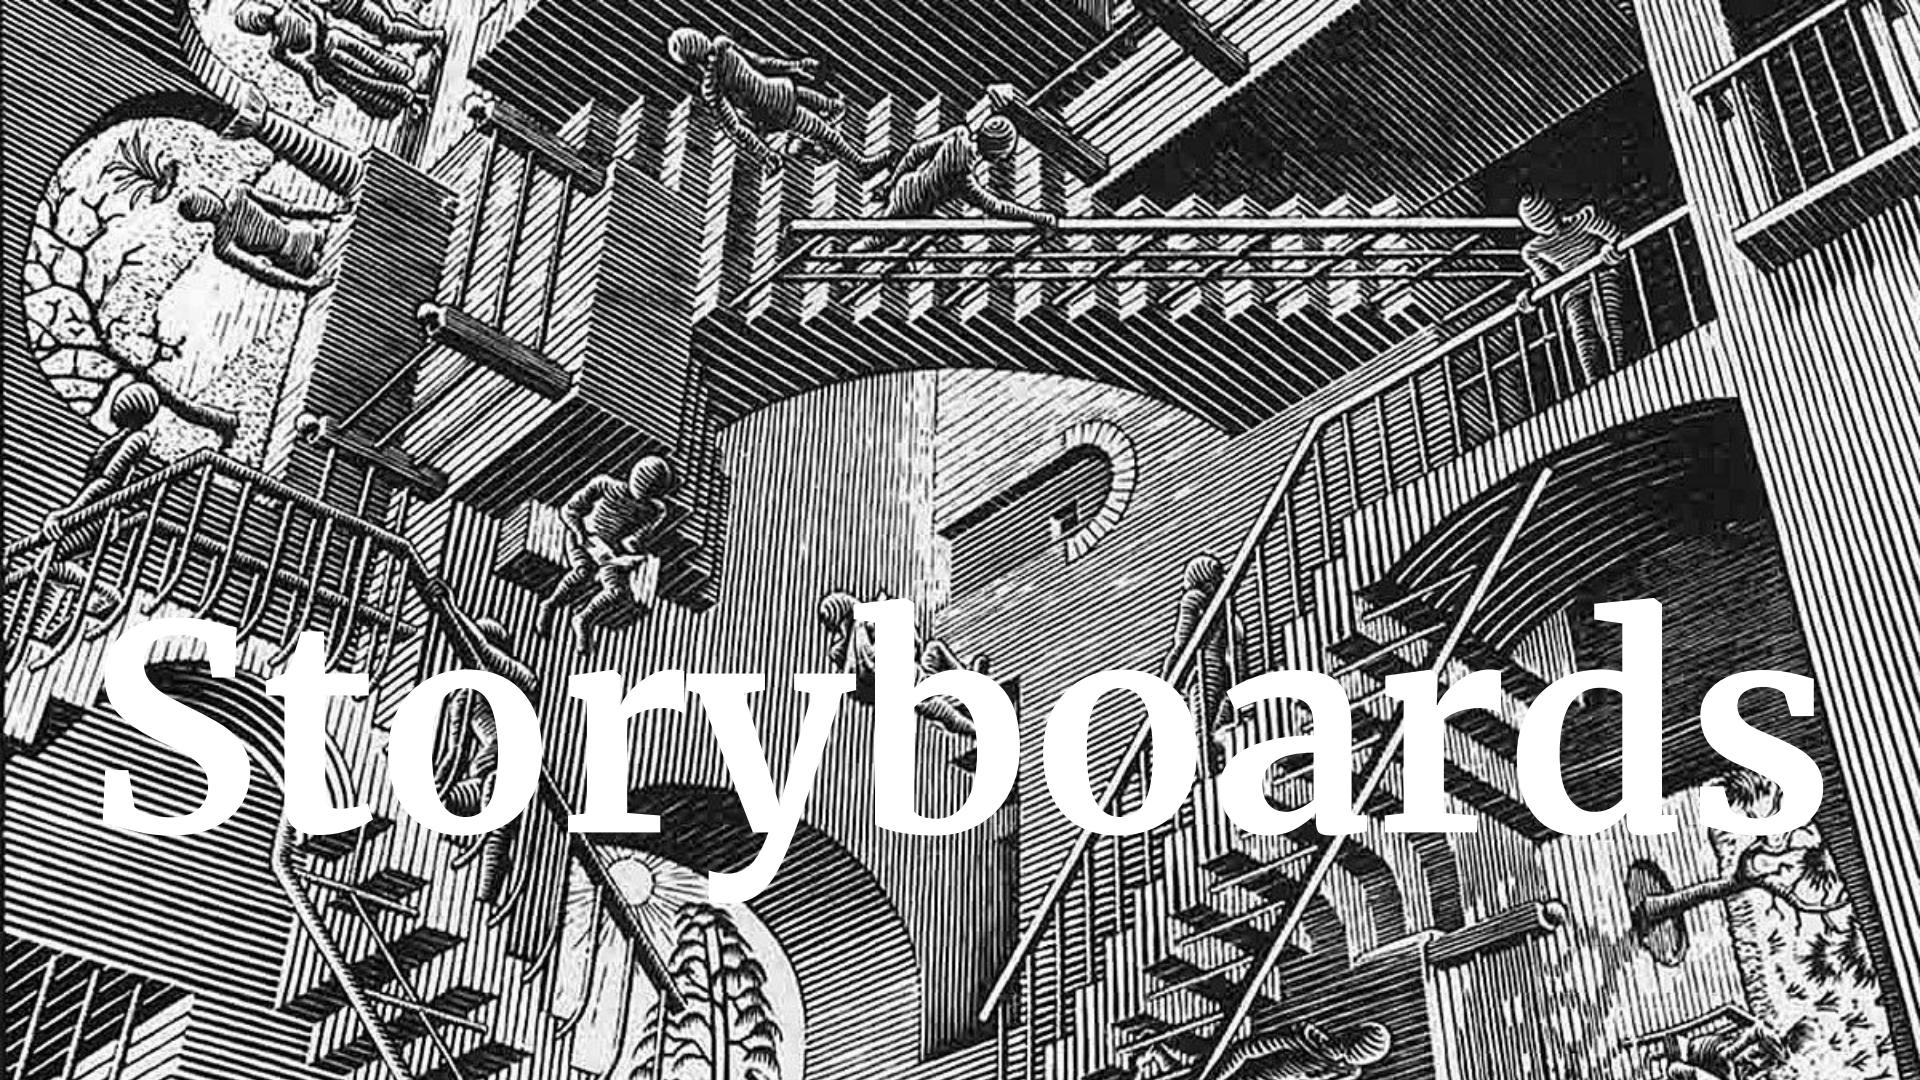

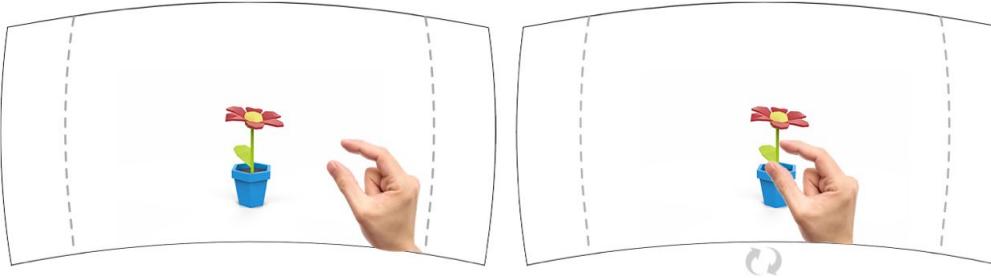

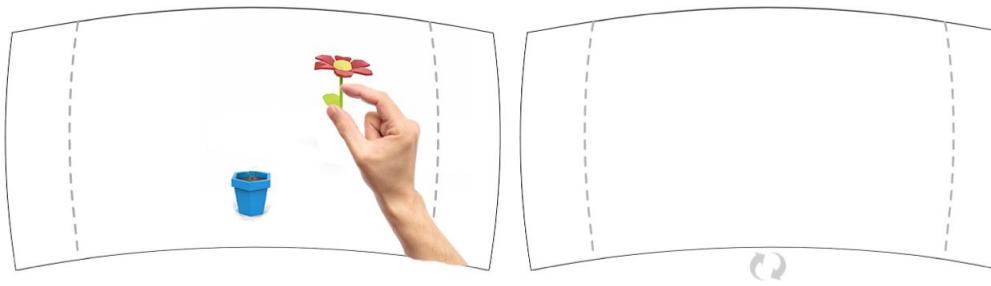

A detailed black and white woodcut-style illustration depicting a complex industrial or construction site. The scene is filled with thick, dark pipes, scaffolding, and structural beams. Several small figures of workers are scattered throughout the composition, some standing on pipes, others on ladders or scaffolding. In the foreground, there's a large, stylized circular graphic element containing the letters 'P' and 'I'. The overall aesthetic is gritty and mechanical.

# storyboards

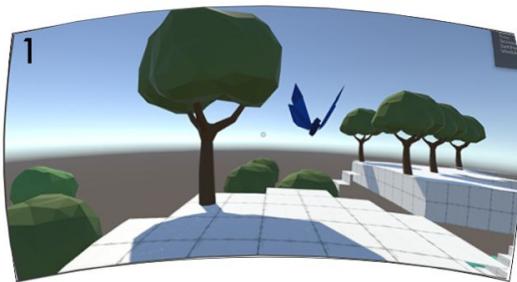

User sees flower and  
wants to pick it up

User attempts to  
grab the flower

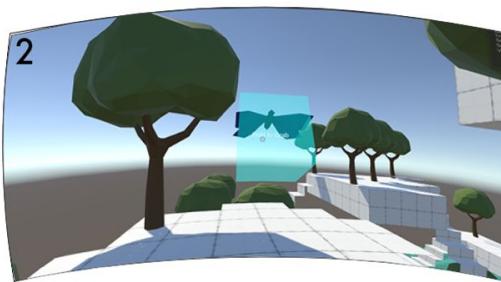

User is able to  
pick the flower

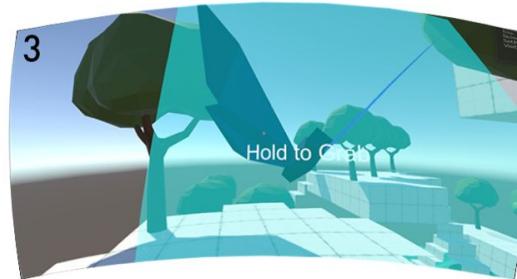

1

User sees a butterfly

2

User wants to interact  
with the butterfly

3

The butterfly is now  
a child of the player

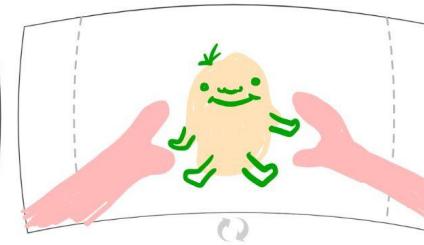

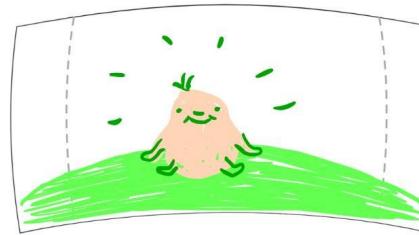

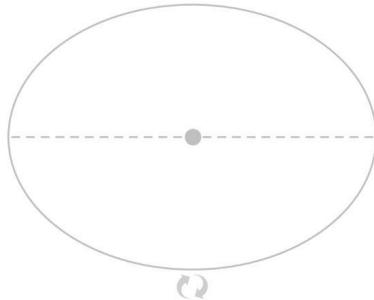

4

The butterfly will  
follow the player around

Title **Hanging Gardens**

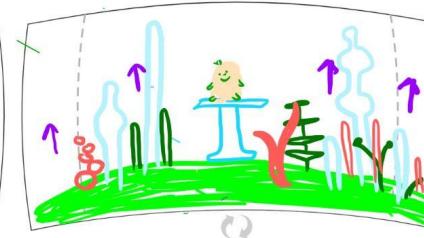

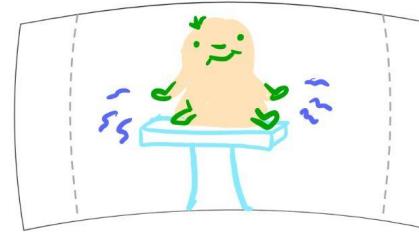

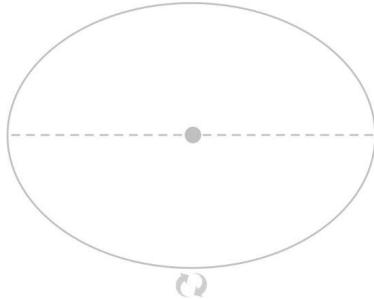

Director **M, A, J**

Platform(s)  
**Unity, Blender...**

You found one of  
our hidden  
objects!

You can now pick  
up this object and  
bring it to its trigger  
Point.

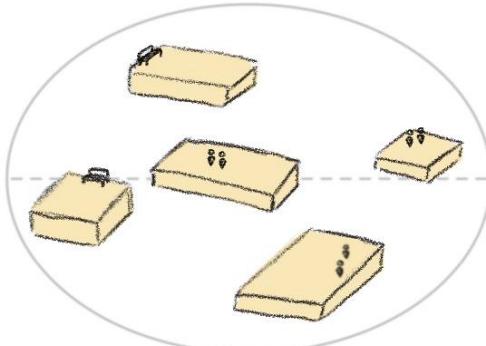

Place item on  
trigger point &  
it will sink into  
the ground.

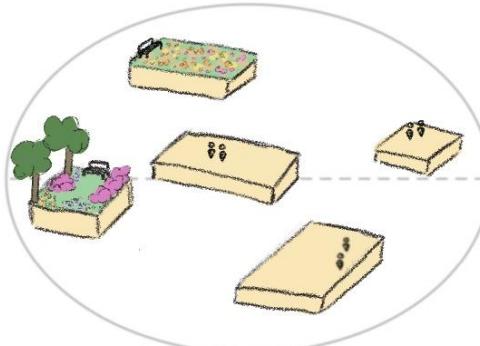

Plants/Biome will  
bloom around  
you!

## Unlocking Plants

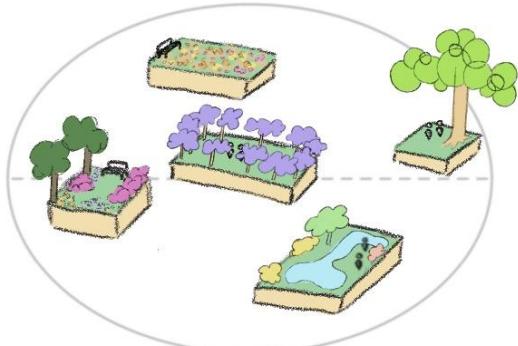

AllyHall

At Start, all platforms/sections are empty - no plants

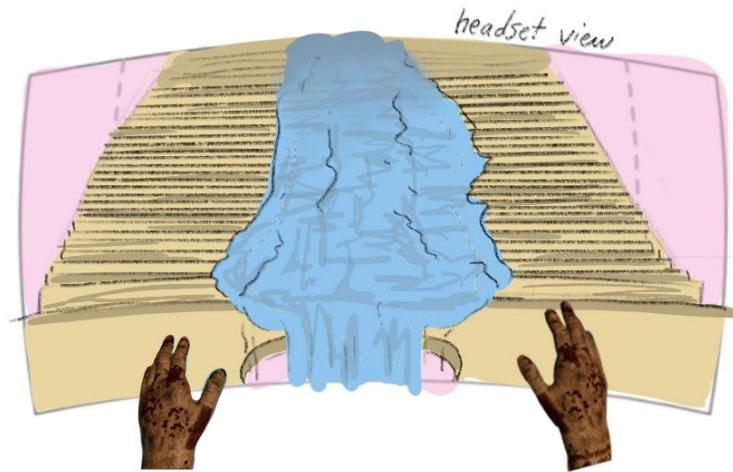

As you find each object, you unlock the respective section and all its plants

Unlock them all!

Starting/Spawning Point

Starting/Spawning point at the bottom of a large set of stairs where a waterfall ~~that~~ runs down the middle and falls through a circle shaped hole -

Perspective View
